Program Information

This course is designed to provide basic preparation for entry-level jobs in the tire manufacturing industry. Students will gain competencies in safety, quality, measurement systems, teamwork and communication, as well as processes involved in making a tire.

Successful completion of this course is not a guarantee of an interview at Bridgestone.

All applicants meeting program requirements of Wilson Community College are eligible to take Basics of Tire Manufacturing. To successfully complete the program, students must attend 90% of all scheduled classes and maintain an 80% grade average, with a minimum score of 60% on each test. Students not meeting attendance and/or grade requirements will be dismissed from the program.

Bridgestone Employment Requirements

- **Successful completion of the Basics of Tire Manufacturing course;**
- **Successful completion of the Basic Skills Test held at Bridgestone;**
- **Complete and pass a criminal background and employment reference check;**
- **Pass drug screening;**
- **No felony conviction(s) within the past seven years.**
