Minutes and Actions of this meeting

Item # 1: Present's Climate Commitment
<p>Frances stated she'd need help with several items in the future regarding our carbon footprint. Rob indicated areas of improvement are commuter transportation and IT issues. What if we charged students a fee and then buy carbon offsets for commuter issues related to carbon footprint? Other ideas are addressing distance education to help in those efforts. Maybe increase bike lanes and locking spaces for bikes on campus.</p> <p>Actions, Responsible Person(s), Due Dates:</p> <ul style="list-style-type: none">• If you have ideas for commuting or energy reduction email it to Frances Roebuck by the end of July
Item # 2: "Story of Stuff"
<p>Rob showed a short CD on the "Story of Stuff" designed to show people issues related to sustainability such as the true "cost" of a consumer based society. He wants us to think about how to incorporate sustainability issues in every class on campus</p> <p>Actions, Responsible Person(s), Due Dates:</p> <ul style="list-style-type: none">• Subcommittees will be working on this in the future
